SKILLS

- Java, Python, C++, C
- Machine Learning
- Data Science
- Artificial Intelligence
- Data structures & Algorithms (DSA)
- Spring & Spring Boot
- Django, Rest APIs
- HTML, CSS, Tailwind CSS
- React JS, JavaScript
- PostgreSQL, MySQL
- Git/GitHub & Bit Bucket
- Postman
- API design, Testing
- Operating Systems
- Computer Networks
- AWS (EC2, S3)
- Low-Level Design (LLD)

SUMMARY

Software Developer with **3**+ years of industry expertise in designing and deploying scalable, high-efficiency applications. Specialized in Java, Python, and Django, Spring Boot with a strong technical foundation in Data Structures, Algorithms (DSA), and Machine Learning. Proven track record in building optimized backend architectures and integrating data-driven solutions.

EXPERIENCE

Software Development Engineer I

HashMap Innovations – Bengaluru, India *July 2023 – Present*

- ***Full-Stack Development*:** Engineered a centralized internal portal using **ReactJS, JavaScript, and HTML5/CSS3**, streamlining organizational data access for all employees.
- ***Payment Integration*:** Spearheaded the backend integration of the **Ease Buzz Payment Gateway** using **Django**, enabling secure and seamless transaction processing for course enrollments.
- ***Cloud Infrastructure*:** Leveraged **AWS (S3/EC2)** to architect scalable image storage solutions, optimizing database performance and media retrieval speeds.
- ***Automation & Scripting:*** Developed custom Python/WordPress scripts to automate the dynamic generation of testimonial pages, reducing manual content overhead.
- ***Data Management*:** Architected robust data pipelines between **Backend Schemas** using **Django & PostgreSQL**, ensuring high availability for large-scale marketing datasets.
- ***System Synchronization*:** Orchestrated data synchronization between frontend and backend systems using the **Zoho Suite**, improving cross-platform data consistency.
- ***Fulfilment API Service:*** Designed and maintained **RESTful APIs** serving over users monthly, ensuring high availability and performance
- Collaborated closely with product managers and designers to deliver scalable solutions aligned with business goals.

Jr. Software Development Engineer (Intern)

Galvanize Global Education – Chennai, India *Jan 2023 – June 2023*

- *Full-Stack Development*: Designed and developed a dynamic **Polling Application** using **Django Rest Framework**, successfully integrating backend APIs to ensure real-time data synchronization.
- *Performance Optimization*: Analyzed and optimized website assets and code structure, resulting in a significant reduction in **page load latency** and improved user experience.
- *API Testing & Validation:* Conducted rigorous testing of **RESTful APIs** using **Postman**, ensuring endpoint reliability and seamless integration with the frontend.

LANGUAGES

- English
- Hindi
- Telugu

PROJECTS

Speaker Performance Analyzer (NLP & ML)

Python, Kaggle, NLTK, Scikit-learn, Assembly AI

- ***Speech-to-Text:*** Built an NLP system to transcribe and analyze audio for domain-specific content alignment.
- ***Domain Classification:*** Engineered algorithms to calculate topic relevance using text-processing and keyword extraction.
- ***Accuracy:*** Optimized linguistic models to estimate speech accuracy against technical subject areas.

Newborn Health Predictor (ML)

Python, Django, Kaggle, pandas, Scikit-learn

- ***Predictive Modeling:*** Architected an ML pipeline to forecast anthropometric traits (weight, height, color) using medical datasets.
- ***Feature Engineering:*** Identified high-correlation prenatal variables to enhance **Regression and Classification** model accuracy.
- *API Development:* Engineered Django **REST APIs** to facilitate real-time data ingestion and processing of health insights.

EDUCATION

B-Tech in Computer Science

Rajiv Gandhi University of Knowledge and Technologies **IIIT Srikakulam**, Andhra Pradesh **Graduated: April 2023**

GPA: 9.3/10.0

ACHIEVEMENTS

- ***University Topper*** *(Gold Medalist):* Conferred the **Gold Medal** by NACL Industries Limited during B-Tech.
- *Academic Excellence (Gold Medalist):* Secured 9.8/10.0 GPA in Secondary Education, ranking as the **Mandal top student**.
- ***Silver Medal:*** Excellence in Mathematics awarded by GMR IT.
- *Competitive Mathematics:* Secured **2nd Rank** in a regional Mathematics Competition at the Constituency level.
- ***National Scholar****:* Qualified **NMMS** (Merit-cum-Means Scholarship)
- Awarded a certificate of merit for the "Master class on Machine Learning" competition organized by Pantech Solutions, India.
- Achieved **1st Rank** in the University wise Python programming Contest conducted by **APSSDC**, Andhra Pradesh collaborating with **RGUKT IIIT Srikakulam**.
- *Competitive Programming:* Solved 350+ problems on LeetCode (DSA focus).
